Text 3

Online shopping has become more popular in Thailand. A survey of 1 million people in an online shopping website showed that the number one reason why customers choose to buy online is free **shipping**. The survey also found that customers can compare the products they want from many online shops before purchasing it, and they can do that without going out of their houses. Another important reason for the online shopping **growth** is that many products are sold at lower price compared to that sold at the shops. For these reasons, it is not surprising that many people choose to buy online instead of going to a shopping mall, and this shopping trend is going to rise.
